EXPERIENCE

Freelancer — Flutter Developer

January 2025 – current

I'm working as a freelance flutter developer. I am available at UpWork, SnapHunt and Fiverr.

Responsibilities:

- Requirement gathering.
- Plan and strategies for the delivery of projects.
- Decision for packages and plugins to be used in the projects.
- UI/UX design and implementation for the projects.
- Error handling and debugging, code optimization, integration and testing.
- Validate requirements and deliverables.

Mutex Tech Pvt. Ltd., Kathmandu — Flutter Developer

May 2023 – January 2025

I worked as a primary flutter developer. I handled national as well as international clients for the company.

Responsibilities:

- Developed mobile applications for international clients (U.S.) and local businesses using Flutter framework.
- Deployed apps to App Store/Play Store; ensured compliance with platform guidelines.
- Improved app performance by optimizing codebases and implementing caching mechanisms using GetX.
- Mentored junior developers on best practices in state management and UI/UX design principles.
- Collaborated with cross-functional teams to deliver projects on time; achieved 95% client satisfaction rate.

Freelancer — Flutter Developer

March 2023 – May 2023

I worked as a freelancer, primarily for flutter projects. I am available at UpWork, SnapHunt and Fiverr.

Responsibilities:

- Requirement gathering.
- Planned and strategized for the deliverables of the project.
- Decision for packages and plugins to be used in the project.
- UI/UX design and implementation for the project.
- Error handling and debugging, code optimization, integration and testing.
- Validate requirements and deliverables.

Nipuna Prabhidik Sewa, Pokhara — Flutter Developer

February 2021- March 2023

I worked as a mid-level flutter developer. I was involved in 10+ projects.

Responsibilities:

- Flutter developer for client company based in Dubai, as well as local clients for the company.
- Error handling and debugging.
- Research and work on new upgrades for the environment.
- UI/UX implementations.
- Guide juniors with projects.
- Validate existing codes, optimize existing code bases for projects, and implement new codes for new features and projects.

Utsaha Advert, Pokhara — Internship

January 2020 - September 2020

I worked as a junior front-end developer for this company. Vue.js was my primary focus for the time there.

Responsibilities:

- Learn Vue.js and its basic integration.
- Research various project ideas with fellow interns.
- Design UI/UX components for new project ideas.
- Learn to work as a team player for existing projects in the company.

Infomax Pvt. Ltd., Pokhara — Internship

July 2019 - October 2019

I worked as a computer mentor and analyst for the company.

Responsibilities:

- Learn about the hardware components of computers and laptops.
- Learn and research software and various OS.
- Mentor and guide beginner level classes regarding computer science and software.
- Learn and research React.js and Native Android Development.
